

Emergency Department Throughput Collaborative achieves over \$338,000 in additional revenue

10/10/2017

ATLANTA, Georgia— On October 4, Vizient MidSouth Emergency Department (ED) Throughput Collaborative members were celebrated for their achievements. Over the last year, they have worked to effectively manage patient safety, quality and overall throughput within their emergency departments.

By working together with the Vizient ED Throughput Performance Improvement (PI) Collaborative, Vizient MidSouth members benefited from an enhanced experience by having an opportunity to collaborate on a regional and national level.

This collaboration included face-to-face meetings, webinars and conference calls where members received valuable education from leading practice experts. They also learned how to use comparative data and received high-touch service via coaching calls from Vizient MidSouth performance improvement staff who helped them maintain project momentum.

For 2017, the collaborative reported over \$338,000 in aggregate revenue. While the group contributed to the overall number, the top three members that submitted data to track progress, consistently participated in collaborative meetings and implemented one or more changes as a result of being in the collaborative, received Top Performer awards. Congratulations to the following winners!

- 1st Place— DeKalb Medical - Hillandale
- 2nd Place— WellStar Paulding Hospital
- 3rd Place— Gwinnett Medical Center - Lawrenceville

About Vizient MidSouth

Vizient MidSouth is a membership alliance for not-for-profit health care providers that exists to ensure its members deliver cost-effective care by connecting them with the knowledge, solutions and expertise that accelerate performance.
